RULES AND REGULATIONS

Article 15. - Livestock Brands

9-15-3. Brand locations. Certificate of brand title shall not be issued upon original application for registration except for the shoulder, rib and hip location on either side of the animal: Provided, That certificate of brand title may be issued for the branding of sheep with paint or tar on the back. HELPFUL INFORMATION

1. The proper heat of an iron is the color of ashes. A red-hot iron starts a hair fire, and usually results in a poor brand.
2. The result of acid branding is usually unreadable. It may cause a bad sore, and leave a scar and not a brand.
3. You cannot expect a readable brand if you use a small iron. A thin, burned-up iron will cut too deeply or make a thin scar which covers over with hair.
4. The Brand Law does not specify the size of the brand. The size of the iron of each character or symbol should be approximately $3\frac{1}{2}$ or 4 inches at the highest and widest points and the face of the iron at least $\frac{1}{4}$ inch wide.
5. Use of a separate iron for each character in your brand, is desirable. Two or more letters or characters joined together will not heat or burn evenly. It may slip and make a distorted or blotched brand.
6. Branding a wet or damp animal will scald, leave a blotch, a bad sore or no brand at all.
7. An iron should burn deeply enough to remove hair and the outer layer of skin. The hair should be clipped and removed before the hot iron is applied. When the iron is lifted, the brand should be the color of saddle leather.
8. Upon expiration of registration of a brand it is carried on the records for a six month period, during which time the record owner is granted a period of 60 days grace within which time he may legally use the same. The last 120 days is a delinquency period, allowing the recorded owner to reclaim such brand before it is available to a new applicant. It may not be legally used during said 120 days period, unless and until registration is renewed.
9. When branded cattle are purchased, it is desirable that the buyer obtain a bill of sale showing his right to possession of cattle, carrying brand of another.

10. When a brand is applied to livestock carrying the brand of another, you should be particularly careful that your brand does not overlap the existing brand or brands. A brand may not be burned over, into or through so as to disfigure or mutilate an existing brand.

11. Brands may be transferred by submitting a notarized bill of sale from the owner or owners of record along with the transfer fee of $10.00. The bill of sale form may be secured from the brand office. If there is any question on correct procedures in case of death, divorce or other circumstances, please contact the brand office for the requirements.

12. Freeze branding is still being researched. It may be used for an age brand, herd brand, or serial brand, but it may not be used lawfully as a recorded brand for owner identification purposes.

Conflicts in Brands

There are a few letters, numbers and symbols that can conflict with each other, depending on the lay of the digit. Some are:

C	U	C	[	C	(	U	
M	W	W	3	M	3	S	5
P	6	P	9	6	9	L	7
I	1	J	J	∧	V		

We no longer register brands that contain a letter, number, or symbol within a closed area. Example S S S

We no longer register crowns (W) as they conflict with written W's.

We no longer register slanting or tumbling letters or numbers. They must be upright or lazy.

We discourage registration of broken bars as there are so many variations.

We discourage registration of lower case letters as they conflict with other brands.

We no longer register two digit numbers. Kansas law gave licensed feedlots authortiy to use two digit numbers as pen numbers.

You can use your same registered brand on both cattle and horses as long as you brand on the same location you have the brand registered.
